Lesson 26 & 27: One-step Equations Addition, Subtraction, Multiplication, & Division
Exit Ticket

Solve the equation. Show your work. Check your solution.

1) $k + 6 = 18$

2) $4 = \frac{t}{5}$

3) $3p = 24$

4) $20 = d - 6$

You **MUST** complete this on your own. Do not ask others for help. Show all work. No calculators.
